

What
is
Teams?

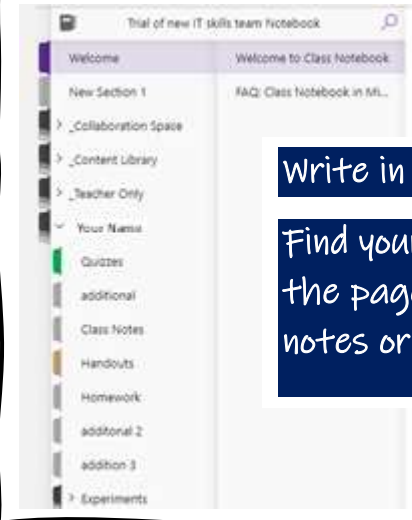

Teams is your virtual (computer version) of school. Your tiles are like the different classes that you are in.

Class Notebook

Class notebook is like writing in your jotter and handing it in for marking and checking.

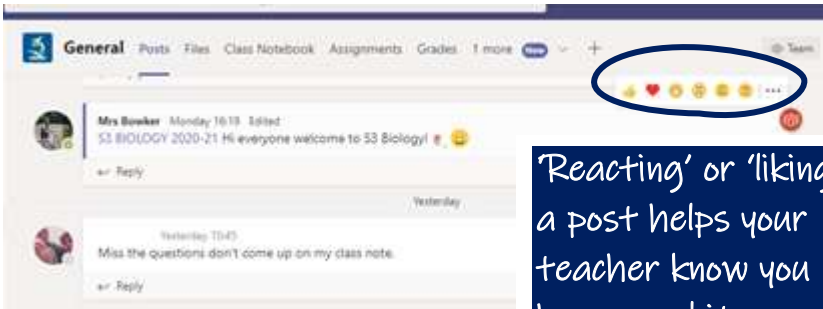

Write in your jotter

Find your name and use the pages to write your notes or answers.

Your classes - Posts

The posts are like you putting your hand up in class and asking a question. Your question often helps others.

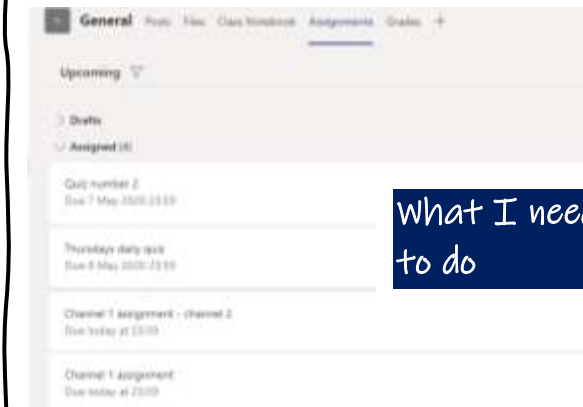

'Reacting' or 'liking' a post helps your teacher know you have read it.

If you can't read it click on ... then immersive reader and it will read it to you.

Assignments

This is like the board that teacher writes on with the instructions for your tasks.

What I need to do
