

07 October 2021

Dear Parents/Carers

As you know, Lockerbie Academy and Lockerbie Primary buildings are operated by Amey.

Amey have informed us that an issue with the fire alarm system has been triggered this evening. Engineers and the Fire and Rescue Service have been in attendance at the school trying to identify the issue and resolve it. However, the issue is a complex one and could not be sorted and no timescale can be confirmed at this stage.

Therefore, the unfortunate decision has been taken that Lockerbie Academy and Lockerbie Primary School buildings cannot be opened to all pupils and staff tomorrow. The buildings must remain closed until the issue can be resolved.

We apologise for the inconvenience this will create for our families, but we have tried to give you as much notice to allow you to make alternative arrangements, as necessary.

Wishing you all a very happy and safe October break.

Yours faithfully

Brian Asher, Joanne Aitken and Sharron Harper
Campus Management Team
