

2021-2022 School Improvement Plan

Priority 1

We will work together to improve pupil attainment, particularly in literacy and numeracy

How will we do this?

By updating our Learning & Teaching Policy, we will provide a framework for all lessons to ensure learners are challenged and engaged.

We are working towards a Digital Schools Award. This will support families with digital learning and improve independent learning for our young people

Priority 2

We will work together to improve pupil health and wellbeing, including mental and emotional health and wellbeing

How will we do this?

We will take forward a whole school Nurture approach. This will ensure all young people benefit from a consistent approach.

By having using this approach, we hope to improve attendance, improve relationships, improve mental health and reduce the likelihood of offending.
